&more!**

## About ACTiveNSW Support Café!

We are inviting important service providers, to each share a 5 minute presentation. You will then work your way through a series of designated conversation tables, where you will have an opportunity to spend some quality time with each provider. Through this Café style PD session, we aim to create a more personalised and intimate experience to better forge relationships between service providers and institutions, while allowing time for questions and discussions that otherwise may be difficult or unlikely to form. Stay around for our AGM and vote in the next years branch committee members- or nominate yourself for a role!
