

“As one of the successful Member Bursary winners I want to say how great it was that I could attend the 29th ISANA Conference in Sydney.

The conference was amazing! It enabled me to meet some of my Eastern States counterparts and do valuable networking. With limited PD funds and opportunities over here in WA, I was very fortunate to be awarded the bursary. The sessions I attended will definitely help me to improve some of the processes that I currently use in International Student Support. I have already scheduled a meeting in the New Year with my team to discuss the conference and share my experiences.

I was also fortunate to be able to participate in the social events including the welcome reception, journey to the centre of the city and the Gala Ball with the awesome student band the Grouches.

The application process was simple, and any questions I had were easily answered by Phoebe from the ISANA Secretariat.

Thanks again and I definitely encourage those who are eligible to apply for the Member Bursary next year to attend ISANA's 30 year celebrations in Melbourne.”
